

Steven Dirth

Software Engineer & Solutions Architect

 Ankeny, IA, US  steven@dirth.dev  [dirthsj](#)  [LinkedIn](#)  [GitLab](#)

Software Engineer & Solutions Architect with 5+ years of experience with .NET and Angular

EXPERIENCE

Software Architect @ Corteva Jul 2024 – Present

As a Solutions Architect at Corteva Agriscience, I am responsible for designing and implementing software solutions that meet the needs of our Research & Development teams. I work closely with our business partners to understand their requirements and translate them into technical solutions that leverage the latest technologies and best practices in software development. I also collaborate with our engineering teams to ensure that our solutions are scalable, maintainable, and secure.

Software Engineer II @ Corteva Sep 2022 – Jul 2024

As a Software Engineer II at Corteva Agriscience, I was responsible for developing and maintaining software applications that supported our Research & Development teams. I worked on a variety of projects, including web applications, desktop applications, and IoT applications, using C# and Angular as the primary tech stack.

Software Developer @ Corteva Jun 2021 – Sep 2022

As a Software Developer at Corteva Agriscience, I was responsible for developing and maintaining software applications that supported our Research & Development teams. I worked on a variety of projects, including web applications, desktop applications, and IoT applications, using C# and Angular as the primary tech stack.

SKILLS
